DOG

PROBLEMS

WE HAVE A
SOLUTION FOR YOU

PAC | Dog Control System Experts

PAC EXT+

Medium, Large Dog Training System

Long range control up to 3km on ideal terrain

Strongest collar on the market will control even the most headstrong dog, suitable for long or short haired breeds

Separate buttons for tone or vibration pre-warning and 60 levels of stimulus

EXT+ has 3 programmable buttons low, medium and high, you can pre-set the variable stimulus levels to suit your dog sensitivity

The EXT+ uses standard AAA batteries, handy if out and about and the batteries run out you can simply change them

Fast 2 hours recharging collar, lithium-ion battery giving double the battery life of any other collar on the market

Collar USB rechargeable - making it easier to charge in the car or jeep if required

Collars are lightweight, durable and waterproof

Kits come with carry case

EXT2+ (standard model) is capable of controlling two dogs from the same handset

(for more dogs all that is required are extra collars) different versions of the EXT+ handsets in this range can control up to 6 dogs

Medium, Large Dog Training System

Long range control up to 1 km on ideal terrain

Strongest collar on the market will control even the most headstrong dog, suitable for long or short haired breeds

Separate buttons for tone or vibration pre-warning and 60 levels of stimulus

Handset has an adjustable rotary dial, making it simple to change the stimulus levels from the handset

Rechargeable handset batteries give up to a months' worth of training sessions from a single charge

Fast 2 hours recharging collar, lithium-ion battery giving double the battery life of any other collar on the market

Collar USB rechargeable - making it easier to charge in the car or jeep if required

Collars are lightweight, durable and waterproof

Kits come with carry case

Handset mode can be changed within seconds by the user to control up to three dogs
(for more dogs all that is required are extra collars)

Vibration Only Dog Training System

(Completely Free Of Electrical Stimulation)

Long range control up to 1km on ideal terrain

Strongest vibration only collar on the market.
No stimulus. Suitable for long or short haired breeds

Separate buttons for tone pre-warning or vibration correction

Handset has an adjustable rotary dial, making it simple to change the vibration levels from the handset

At a low level the vibration is a mild 'tap on the shoulder', top-end is equivalent to a strong shake by the scruff of a dog's neck.

Rechargeable handset batteries give up to a months' worth of training sessions from a single charge

Fast 2 hours recharging collar, lithium-ion battery giving double the battery life of any other collar on the market

PAC BUZZ Collars are USB rechargeable - making it easier to charge in the car or jeep if required

PAC BUZZ Collars are lightweight, durable and fully waterproof

Kit comes with carry case
Handset mode can be changed within seconds by the user to control up to three dogs (for more dogs all that is required are extra collars)

Miniature, Small Dog Training System

Long range control 750 metres on ideal terrain

Smallest and most reliable collar on the market. Suitable for miniature and small dogs, long or short haired breeds

Separate buttons for tone or vibration pre-warning and 60 levels of stimulus

Handset has an adjustable rotary dial, making it simple to change the stimulus levels from the handset

Rechargeable handset batteries give up to a month's worth of training sessions from a single charge

Fast 2 hours Recharging collar, lithium-ion battery giving double the battery life of any other small collar on the market

Collar is waterproof and USB rechargeable - making it easier to charge in the car or jeep if required

Handset mode can be changed within seconds by the user to control more dogs (for more dogs all that is required are extra collars)

PAC Miniature, Small Dog & Cat Fence**PAC Medium/Large Dog Fence****PAC Extra Large Dog Fence**

Any number of dogs/cats each wearing a collar can be contained on a system. Suitable for long or short haired breeds

Collar gives tone pre-warning followed by stimulus, the levels automatically increase as the dog or cat approaches the wire

No expensive battery replacements needed as collar is rechargeable, long operating times up to 3 months

If family or friends have the PACDOG system, your collar will automatically work on their system, no extra set up

Standard system includes 200mtrs of wire, enough to cover 1/2 acre. For larger areas more wire can be added. There are no restrictions in the shape of the area to be enclosed, which may range from ¼ acre (or less) up to 20+ acres (over 6 acres you would need a boosted FC4 unit and heavier gauge wire)

System is designed for easy D.I.Y installation wire can be installed by laying over the ground, buried 2-3 inches down, fed through hose pipe, tacked to an existing fence or through a hedge etc.

Anti-Linger sensor prevents battery depletion in the tone zone. Speed detector prevents fast run through

Battery back-up in the event of a power failure

System fully operational while charging the collar

In built lightning protection

Digital signal gives complete immunity to outside radio interference

Control unit will alarm if there is a break in the wire

Collar is fully waterproof and will withstand wet, muddy conditions

PAC BARK CONTROLLER

Stops persistent, nuisance barking automatically

Wearing this collar your dog will learn quickly for himself that barking for barking's sake is not an option

Longest battery life on the market, rechargeable lithium-ion battery, charges in two hours and up to two months usage between charging.

Automatic, humane & highly effective.

Not affected by the barking noises from other companion dogs.

Collar can be set at 8 different levels of stimulation.
Not only that, but you can choose level "0" to use just the vibrate or tone functions, no stimulation

The first warning cycle will be vibration or tone only
pre-warning but with persistent barking, the collar will give repeated stimulus
(at a pre-selected stimulation level)

The stimulation will cease immediately when the barking stops

Collar is lightweight, durable and waterproof

PAC DOG Training Systems

Ideal for all types of persistant problems:

Dogs running away or being wilfully 'deaf' to recall
Dogs being over-enthusiastic, barking at people or other dogs
chasing cars, joggers, walkers, cyclists, postmen etc.

Jumping up on people or stealing food

Dogs pulling on the lead

Chasing farm stock and other animals

Gundogs 'running' in or being over-enthusiastic

PAC Pet Fence is the best system on
the market, guaranteed to contain pets without the
need for ugly fencing!

PAC DOG Bark Controllers will cure your dog's nuisance
barking instantly.

All products come with our standard two year warranty

Keep your dog safe and visible night or day with
our range of high vis dog collars, leads and long
line training leads.
